

AT THE FOREFRONT OF DATA CENTER INNOVATION

SEAMLESS CONNECTIVITY PRECISION

SAFETY & UPTIME

Our rigorous testing and maintenance protocols minimize downtime, making us a trusted partner for mission-critical data center operations.

RAPID MOBILISATION

Our ability to quickly mobilize resources ensures projects stay on schedule, even under tight deadlines.

OPERATIONAL SCALABILITY

Whether expanding infrastructure or adjusting capacity to meet changing demands, our large skilled workforce delivers the agility clients need in a rapidly evolving digital landscape.

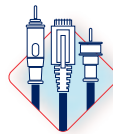

20 YEARS OF EXCELLENCE IN DATA CENTER CONNECTIVITY

100,000+

Devices Connected Yearly

75,000+

Km of Structured Cabling Installed Yearly

8,000+

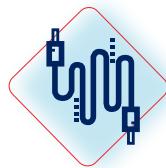

Managed Sites across North America

OUR INNOVATIVE APPROACH

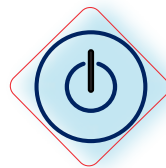

WIRELESS & SECURITY SYSTEMS

Complete implementation of WiFi, DAS, GPS, and security systems.

CABLING SOLUTIONS

Design, supply, installation, and certified copper and fiber cabling.

POWER

Supply and installation of UPS and Power Bars.

INFRASTRUCTURE SETUP

Design and installation of cable trays, ladders, cabinets and containment solutions.

TOP-TIER CERTIFICATIONS IN CABLING, INFRASTRUCTURE, POWER SYSTEMS, AND SECURITY INSTALLATIONS

360° SOLUTIONS FOR FUTURE-READY DATA CENTERS

CIVIL + INTERIOR CONSTRUCTION

Building and managing infrastructure to connect telecom services to data center rooms.

UNDERGROUND INFRASTRUCTURE

Locating underground utilities to prevent costly and potentially dangerous utility conflicts.

CONNECTIVITY

Design, construction, delivery, and maintenance of data center networks.

ENGINEERING

Providing plans and construction quotes post locate.

NETWORK EXPERTISE

Specialized experts for network infrastructure to enhance performance and reliability in evolving data centers.

TAILORED DATA CENTER SOLUTIONS

GOVERNMENT

We bring extensive expertise in managing highly secure projects for government entities, ensuring data sensitivity and meeting stringent compliance requirements through our deep experience with government contracts.

COLOCATION

We optimize infrastructure to maximize value for companies that sublet specialized facilities, offering high-end resources without the responsibility of managing data centers. Our ability to quickly adapt to diverse tenant needs makes us a preferred partner.

PRIVATE SECTOR

Tailored solutions for private clients needing full control over their data centers. Our services ensure secure, scalable, and efficient facilities, supporting high availability and performance across corporate, financial, and tech sectors.
